VOLUME 43, NUMBER 06 NOVEMBER 2025

RED MARKERS

NEWSLETTER OF THE CENTRAL NEW YORK DIVISION OF THE NORTHEASTERN REGION,
NATIONAL MODEL RAILROAD ASSOCIATION, INC.
SERVING MODEL RAILROADERS IN AND AROUND CENTRAL NEW YORK STATE

NEXT MEETING. . .

SUNDAY NOVEMBER 16, 2025 1:30 – 4:45 PM

ROGER BEISWENGER (1:30 – 2:15)

16 CANTURBURY ROAD, NEW HARTFORD, NY 13413

Park in driveway or on the street. Walk around to the rear, enter through center door, and walk on down to the train room.

NEW HARTFORD LIBRARY - SAMMON ROOM (2:30 – 3:30)

2 LIBRARY LANE, NEW HARTFORD, NY

BOB WILKINS (4:00 – 4:45)

631 FLORENCE AVE, ONEIDA, NY 13421

Bob's is the last house on the left on the dead end. GPS may bring to Florence via Belmont. Belmont is mostly a "paper street." Instead, enter Florence off Cleveland Avenue.

AT THIS MEETING AND IN THIS ISSUE . . .

Model Railroads: It has been awhile since we've been to Roger's and Bob's layouts. Roger's layout is a freelanced version NYC Adirondack line to Tupper Lake in the 1950's, and Bob's layout is the Mohawk Valley Division. Since the last visit, there is a new level on top of Poughkeepsie. Visit Roger on the way to the meeting – the library is just about a mile from his house – and Bob following the meeting. Please be respectful of the times listed.

Division Meeting: Our meeting place is the New Hartford Public Library. Enter the Sammon Room from the rear parking lot.

Clinic: Bruce Ryan's presentation will focus on the New York Central High Line, history and photos, and put it in context of the terminal railroads in New York harbor. The High Line and the terminal railroads are the two inspirations for his layout, so he will probably tell the story of how the layout came to be.

Raffle: No raffle at this meeting.

FROM THE FREIGHT SHED

DREW JAMES, MMR, SUPERINTENDENT

While model railroading is a year-round hobby, November is officially "National Model Railroad Month" and is the start of prime model railroading season. There are train shows to go to almost every weekend. We no longer need to cut our grass and it is too cold for golf (I'm looking at you, Bill Brown) so we can spend more time in our basements working on our layouts, hosting operating sessions, or starting on our next AP certificate. It is no surprise that the NMRA chose November to roll out their rebranding campaign and Vision 2035 (more on that in a separate column).

Of course, here in Central New York, the first weekend in November is the Train Fair. Many thanks to Roger Beiswenger and his team for certifying so many new young engineers with our Port of Oswego layout. This is such a wonderful way to share the joy of trains with the next generation. It is more work than you might think to get ready for this event, but when a parent says that this is their child's favorite part of the show, it is worth it.

Congratulations to Jeff Paston on completing his long run as coordinator of the Train Fair! His is a well-deserved retirement. I was please to hear that another of our division members, Tom Pierson, will be leading up the show going forward.

Be sure to come out to our November meeting and see Roger's and Bob Wilkins' beautiful layouts. It has been too long since we last hosted a meeting in the Utica / Oneida area. Going forward the board plans to host at least one meeting a year on the eastern side of our division. We have several new members out that way and we have been remiss in not having more activities there.

At the end of October Ed, Scott, Charlie, and I participated in Lakeshore's "Ops Around the Clock" weekend. It was a blast! Besides the fun of operating you get to meet the owners and others from around the region. There was even a participant from Southern California! I encourage you to give an ops weekend a try. The Lakeshores division is certainly close to us and participation only involves one overnight. Next year it will likely be held in September.

Drew

CNY DIVISION TOOL LOAN PROGRAM

Ed Olszewski, Division Storekeeper
and Member Aid Chair

The list of tools available for loan is on the CNY Division website in the "Tool Room" tab: https://cnynmra.org/tool-room/

In summary, we have Fast Track HO and HOn3 turnout and crossover jigs, track spacing gauges, rock molds, HO camera car, a static grass applicator, and a speedometer useful for speed matching your DCC locomotives.
Send the Division Storekeeper an e-mail to cnynmra@gmail.com with the words "Tool Loan" in the subject line, listing the tool(s) you wish to borrow. We would like to continue to add to the Division store. If you have tools you no longer need and would like to donate them to the Division, contact the Storekeeper and let him know what you have to donate.

NMRA's Rebranding and Vision 2035 – By Drew James

Most of you have probably seen that the NMRA has started to roll out a new brand for the organization. Most of the feedback I have seen is focused on the new logo and, unfortunately, much of it, at least on social media, is very negative. I am sure some of you dislike it, and others may like it. At the Train Fair, I was asked for my opinion on the logo and I thought I would share my viewpoint with all of you.

Let me get this out of the way up front. I think the logo is no better or worse than the existing one. I certainly like that it is simple and easy to read. Like it or not, please understand that the rebranding effort is much more than just a new logo. Anyone who has interacted with other divisions, gone to a convention, or the Springfield show can see that every part of the NMRA has its own logo – and it is not obvious that the different groups are all part of the same organization. At the Train Fair, in our own booth, we display our division's logo, the national logo, the NER logo, and the Lakeshores division's logo – and none of them have any resemblance to each other. At Springfield it is even worse. A primary goal of the rebranding effort is to have a common "look and feel" across the entire NMRA. Eventually, every region and division will have a new logo consistent across the organization. In my opinion this is a very good thing and is far more important than what the logo itself looks like.

The rebranding is part of the larger NMRA's "Vision 2035". I have seen presentations of parts of this at the last two national conventions and it was sent to all members by Gordy on November 1st. There is a lot to like in it. For example, I am sure we can all buy in to the goal of finding new revenue streams for the organization outside of membership dues. While I think the NMRA is a great value and the dues have held steady the last few years even with increased inflation, it is not cheap and unfortunately the price is a hurdle some modelers cannot get over.

One of the aspects of the Vision 2035 plan is to set expectations for the membership experience at the division level. We have a great active division, but unfortunately that is not the case across the entire NMRA. Vision 2035 sets out standards for every division in four key areas.

Effective Division Operation - This standard focuses on the foundational structure and consistent communication needed for a division to function smoothly and professionally.
Member/Modeler Skill Growth - This standard focuses on providing opportunities for members to enhance their skills, gain recognition, and deepen their involvement in the hobby.
Building the Organization - This standard focuses on growing NMRA membership, fostering a welcoming community, and maintaining ties with the national organization.
Public Outreach & Visibility - This standard focuses on sharing the hobby with the public, attracting new interest, and ensuring model railroading has a visible presence in the community.

The NMRA has even developed a very specific check list to help divisions assess how they are doing in each area and to set expectations. I was pleased, but not surprised, to see that we are already doing just about everything on the checklist, however there are some areas where we could be doing more. I plan to walk through this check list at the next division board meeting and discuss at our annual meeting in February. I am sure it will lead to a lot of interesting discussions.

So, I am not trying to convince you to love the new logo or not, but rather I am asking you to look beyond the logo and take a bigger view of what the NMRA is trying to accomplish moving forward with the rebranding as well as Vision 2035.

Saving RPI's New England Berkshire & Western Model Railroad

By Ed O'Rourke, MMR – NER President

I think most of us are aware the RPI model rail club had one of the finest layouts in the Northeast, frequently appearing in the model press. In 2018 RPI needed to move the layout from the space it was in. RPI contracted to cut the layout up into movable pieces and place it in storage. In the process they inventoried everything on the layout including structures and rolling stock.

The plan was to move the layout to a new location in a leased building. RPI spent significant funds on renovating and moved the stored pieces to this new location. Several RPI administration changes occurred, and the layout was never reassembled. RPI has now determined it will end this lease in February 2026 and dispose of all items in that location.

There have been attempts to salvage the layout in its entirety, but all have fallen through. The NER was asked and agreed to attempt to save what can be saved and dispose of what cannot. RPI has agreed to transfer ownership to the NER, provide access to the building, and provide a dumpster to dispose of that which cannot be saved.

NER is working with the existing RPI model railroad club to keep anything they desire so long as they have the space to receive it before the end of January. In addition, NER will allow alumni, historical groups and tourist railroads to receive pieces of the layout. There are a couple of groups who have expressed interest. NER will work with these groups and facilitate this transfer so long as the organization can pick up the items by the end of January.

Beyond that, there will be a vast amount of model railroad equipment to distribute.

Any division wanting a specific building or section of the layout can have it for free, as long as they pick it up before the end of January.

The Hudson Berkshire Division and the Hub Division both have train shows in December where items may be sold.

The Amherst Railway Society will provide space at its show the end of January. The majority of items will be taken to the show and sold there. NER will share some of the sale income with Amherst, and possibly with the RPI Club.

Anything left at the end of the show can be given to Divisions/ NER members, stored or or will be trashed.

NER has no financial obligations as a result of this proposal. Stan Ames as team leader has agreed to cover all expenses the NER Treasurer approves up to the end of the Springfield show to be reimbursed by sales. (Stan does not expect many expenses.)

This is a save what can be saved effort and not a save everything effort. Thus what cannot be saved by a certain date will end up in a dumpster. The proposed end date for this effort is the evening after the end of the Railroad Hobby Show on January 25, 2026. Any material not distributed, sold or given away by that date will be trashed.

Current Team Members

Stan Ames - Team leader (RPI alumni and past president of the RPI Model Railroad Club), Dave Insley (NER VP), Artie Krass (Hudson Berkshire Div. President), Doug Dederick, Gregory Whittle, and Ed Olszewski (NER Western Rep.)

Other local model railroaders may be added to the team.

The NER will keep everyone updated as this effort evolves.
